

MEET THE TEACHER

Marjan Nouri

ALL ABOUT ME

My name is Marjan and I have been working with kids for 16 years now. I moved to Mountain Park in 2001 with my husband, Homey, and two kids from Iran. My oldest son, Ashkan, is in finance and my youngest, Khashi, is in chiropractic school. I love being around kids because they are fun and keep me young. Some of my hobbies include cooking, shopping and spending time with my wonderful family.

MY EDUCATION

After high school, I gained experience in accounting for a year but didn't enjoy it much. While starting a family, I found that I really enjoyed being around children and that's when I knew that I wanted to make it my career. When I moved here in 2001, I began working at the Mt. Park Clubhouse in their child-care room. I gained more experience working with children and my passion grew. A year later I took a position at the preschool and haven't looked back. It has not only been a great experience but a fulfilling one. Over the years I have met a lot of wonderful people while working here and I look forward to the years ahead.
