Fuente de datos: Informes de Resumen de Inmunización Primaria

DATE: July 12, 2022
TO: Clackamas County Schools and Child Care Facilities
FROM: Public Health Division, Immunization Program
RE: Immunization Rate Sharing

The purpose of this memo is to share Clackamas County immunization rates with you and to explain how to access your facility's immunization rates. To calculate your site's immunization rates, go to www.healthoregon.org/immdata. On this website, you can find your site's rates and make a graph.

Who shares?

Senate Bill 895, passed in 2015, requires that all schools and childcare facilities with 10 or more children publicly share their immunization and exemption rates.

You are required to share these rates twice a year:

- ✓ Within 30 days after the start of school, and
- ✓ Within 30 days after the April immunization exclusion day.

Where do you share?

You must share both the Clackamas County immunization rates and your facility rates in three ways:

1. On your school or children's facility website or social media page,
2. In your main office, and
3. With parents, in electronic or paper format, such as an email, newsletter or mailed copy.

Do you need to share both graphs?

- If your school only has grades K-12, you only need to share the school-aged graph.
- If you only report on immunizations for children younger than school age, then you only need to share the graph for students younger than kindergarten.
- If you have both age groups, you need to share both graphs. For example, a site that has a preschool and a kindergarten will need to share both graphs.

If you have any questions regarding these requirements, please feel free to contact us at immunizations@clackamas.us

How many children at THE PLAYSCHOOL AT MOUNTAIN PARK are vaccinated: March 2023*

Number of children at the school**: **60**
 Percent of children with no immunization or exemption record: **0%**
 Percent of children with a medical exemption for one or more vaccine(s): **0%**

* These numbers may not total 100% if some children have medical exemptions, or are incomplete or in process with immunizations but do not need an exemption because they are on schedule.

**There is/are also 0 child(ren) enrolled for whom immunizations are not required to be reported because their records are tracked by another site or they attend fewer than 5 days per year.

**There is/are also 0 child(ren) 18 months of age or younger who are not required to be finished with their pre-school vaccines because of their age.
